

São Paulo points of reference are among the most voted by users of TripAdvisor

São Paulo Hall. Photo: José Cordeiro/ SPTuris.

TripAdvisor, a travel site that has over 200 million visitors per month and more than 100 million ratings, released in late 2013, another survey that includes attractions of **São Paulo** among the major reference points of Brazil and South America.

The page highlighted the **Sao Paulo Hall**, among the five major points of reference in Brazil; the **Museum of the Portuguese Language** and the **State Painting Collection**) as the main ones of the country; and **Ibirapuera Park**, elected by web surfers as the best park in South America.

Check out the full list of award winners Travelers' Choice – Best Attractions, at www.tripadvisor.com.br/travelerschoice-attractions.
